
Chapter 1

Getting Started

Introduction

This manual describes how to install, configure, and monitor the HP ProCurve Routing Switch 9304M and Routing Switch 9308M (hereafter referred to as HP 9304M and HP 9308M or "routing switch").

Audience

This manual is designed for system administrators with a working knowledge of Layer 2 and Layer 3 switches and routers.

Users should also be familiar with the following protocols—IP, IPX, RIP, OSPF, IGMP, PIM, DVMRP, and AppleTalk.

Manual nomenclature

Throughout the manual, a number of conventions are used in presenting information to the user. Listed below is a summary of those items:

Bold refers user to other manual sections or chapters or to emphasize a new term

Bold Italic highlights a specific Command Line Interface (CLI) command or action within a paragraph

NOTE: used to emphasize an important fact or dependency
